### Reasons for Allowance

1. This action is responsive to communications filed 4/4/05.
2. Applicant's arguments filed 4/15/05 with respect to claims 2-5 and 7-9 have been fully considered and are persuasive. The rejection of claims 2-5 and 7-9 have been withdrawn.
3. Claims 2-5, 7-9 are allowable based on all of Applicant's argument filed 4/4/05.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach "load balancing the downlink channel; wherein the downlink channel comprises a sequence of dwells, each dwell having a time period, and wherein the method further comprises the step of detecting that at least one dwell of the sequence conveys more downlink information than the other dwells of the sequence as a prerequisite to performing the load balancing step". The Most relevant reference was "US 6,577,610", however this patent teaches inter-channel instead of claimed intra-channel load balancing.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chad Zhong whose telephone number is (571)272-3946. The examiner can normally be reached on M-F 7:15 to 4:30.
